## PATTERSON JURY DISAGREES

### Actress Collapsed When the Result Was Announced

### And Was Gently Led Back to Cell In The Tombs.

### A THIRD TRIAL IS NOW EXPECTED.

### Till Three O'clock This Morning Jury Wrestled With Case Then Took it up Again After Breakfast-- Was Finally Discharged This Afternoon.

New York, Dec. 23.—(Bulletin)—The Nan Patterson jury, which began its deliberations yesterday at 12:05 p.m., continued till 3 o'clock this morning, then rested about four hours. At 11:30 this morning the jury reported a disagreement but Justice Davis sent the jurors back for further deliberation. At 12:44 this afternoon the jury returned and the foreman announced they had been unable to agree. The jury was then discharged by the court.

Nan Patterson collapsed completely when the disagreement was announced and sobbed convulsively on her father's shoulder. The prisoner was remanded without bail. It is expected that the young actress will have to undergo a third trial. When the jury was polled the actress arose. After the formal questions came the jury's final answer. "We have not agreed upon a verdict." The actress stood and sank limply into her seat. Her father put his arms about her and she began to sob. As the jury marched out the woman clung sobbingly to her father and her anguish was manifest by her crying. She was gently led back to her cell in the Tombs.

New York, Dec. 23.—The jury in the trial of Actress Nan Patterson, charged with the killing of her lover, Caesar Young, came into court this morning at 11:30 o'clock and announced that after deliberating for over 20 hours they had been unable to reach an agreement. The foreman, Thomas H. Harmer, of the jury, informed Justice Davis that the evidence had been carefully weighed but some members of the jury stood out against all argument and reason. Justice Davis sent the jury back again for further deliberation.

It was about 11:30 o'clock when Captain Lynch of the court squad received word from the foreman of the jury that they were ready to make a report. Counsel for the defendant, who had been waiting in a side room, came in and sat down with Mr. Patterson at the counsel table.

The jury was led in at 11:34 and took their seats in the box. Foreman Harmer carried in his hand the letters which Young wrote to Nan Patterson. The jury looked worn and weary from their all night deliberations.

Hardly had the jury been seated when a deputy prison warden brought the defendant into court. She walked along with swinging step and reached her father's side, lifted her veil and kissed him. She then sat down and gazed inquiringly into the faces of her jurors.

Justice Davis took his seat and Clerk Penny called the roll.

There was tense silence in the court room when Justice Davis asked: "Mr. Foreman, have you agreed upon a verdict?"

The defendant grasped her father's arm and leaned forward, while the crowd in the court room arose to their feet.

"We have not," said Foreman Harmer, and a sigh went up.

Justice Davis said that he realized that the jurors had patiently deliberated on the case and said that he thought that they ought to be able to reconcile their minds upon the evidence. He said he did not wish to impose any hardships upon the jurors, but he desired that they take up the locked up that the last of the crowd

melted away and sought their homes. Long before the big building was thrown open for business today, little knots of people stood on the corners opposite the court room and waited. Others stood watching the bridge of sights waiting to catch a glimpse of the black-gowned actress as she passed on her way from the Tombs to the prisoners' pen in the court building.

The jurymen had a hard night of it. They wrangled until nearly 3 o'clock this morning when the light was put out and it was evidently intended to get some sleep. There were no cots or blankets in the jury room and the men had to stretch out on chairs. In this way they obtained a little rest.

Later the steam heat in the building ran low and some of the jurymen complained to Captain Lynch, who guarded the door. He aroused the engineer to give the building more heat.

The jurors were astir early. At 7 o'clock they told their guardians that they were hungry, and 10 minutes later they marched out of the building to a neighboring restaurant. Their haggard appearance indicated the strain they were laboring under.

The jurors returned to the criminal court building soon after 8 o'clock and were locked up in their room for further deliberation.

There were many rumors about the court house this morning as to how the jury stood. One was to the effect that they stood six to six for murder in the first degree and acquittal. Another report was that nine were for manslaughter in the first degree, two for second degree murder and one for acquittal. Still another rumor was that all the jurors were for conviction, but could not agree as to the degree.

#### Ted Murphy Arrested.

Stockton, Calif., Dec. 23.—Ted Murphy, former manager of Pugilist Nelson, was arrested last night on a San Francisco warrant on the charge of stealing money won by Nelson on the fight with Britt.

#### FURNACE FUMES

Overcome Tenement Dwellers, Twelve Being in Serious Condition at Philadelphia.

Philadelphia, Dec. 23.—Twenty-seven persons, most of them women and children, were overcome by coal gas in a crowded tenement house in the foreign settlement of this city. Twelve of them were in such a serious condition that they had to be taken to a hospital, but it is believed they will recover. The lower part of the tenement was occupied by a Turkish bath establishment and the gas escaped from a large furnace used in the baths. There were more than 100 persons in the upper part of the building, most of them Russian Jews. That no lives were lost was due to two policemen, who in passing the building detected the gas and immediately began arousing the sleeping occupants. Many of them were unconscious and had to be carried from the place.

#### POSTAL LAW

Enforcement Has Driven Many Swindlers Out of Business Says the Report.

Washington, Dec. 23.—R. P. Goodwin, assistant attorney general for the post office department, in his annual report to Postmaster General Wynne says that the number of fraudulent concerns has been greatly reduced in consequence of the vigorous enforcement of the postal laws. The result is shown by the marked decrease in the number of complaints received. There were 144 fraud orders issued during the year and 23 orders were issued against foreign lottery companies and their agents, who were found to be operating through the mails. Much has been done in the direction of excluding from the mails publications containing obscene and suggestive illustrations, advertisements and other matter considered unfit for circulation. Many of the worst of this class of offenders have had their enterprises suppressed, and the report says there will be no relaxation of the work.

#### Death in a Fire.

Peoria, Ill., Dec. 23.—A fire which swept one of the principal blocks of Washburn out of existence this morning resulted in the death of Dr. Jess Wea, a veterinary surgeon

There is an establishment in Brussels for teaching the lugubrious art of grave digging. It was founded by a cemetery company and was so successful that it received official approbation. All candidates for the post of sexton in Belgium must have been graduated at this unique academy.

Never before in the history of the city's murder trials have the police had to cope with such swarms of people in the courts. Center street was almost blocked last night and the reserves of three police stations were called to disperse the gatherings. It was not until midnight when the news came that the jury had been locked up that the last of the crowd

## BANK PRESIDENT

Indicted at Chicago on the Charge of Arson This Morning.

Chicago, Dec. 22.—Isaac N. Perry, former president of the National Bank of North America, was today indicted by the grand jury on two charges, arson and attempt to defraud insurance companies. The return was made in Judge Kersten's court this morning. The indictment charges that Perry, the owner of the Chicago Car and Locomotive Works at Hegewisch, set fire to the plant on October 9 with the intent to defraud the insurance companies.

No discussion has taken place between Mr. Perry's lawyers as to the time they will ask to prepare for trial.

It is known that the defense will rely on the star witness for the prosecution, Watchman Frank Bock, who was the only man to see Mr. Perry in the plant the day of the fire. They will attempt to show that Bock told untrue truths on the stand in order to shield himself from the charge of negligence, as he said, but to place the guilt on Perry in order that he himself would not be charged with it.

The other principal witnesses will be Luther H. Baldwin, former president of the company financed by Perry; Edward A. Gaedzick, former secretary, and Wm. C. Hunt, former superintendent.

Police Lieutenant Crane, City Chemist Jones, and several officials of the National bank of North America will testify, it is expected.

#### PICKPOCKETS

And Robbers Are Barred, Said the Chief—While He Talked His Diamonds Were Lifted.

Pittsburg, Pa., Dec. 23.—"I have made special arrangements to see that there will be little or no trouble with thieves and pickpockets among the shopping crowds in Pittsburg. I don't think there will be any of the light-fingered lads get away with very much this glad Christmastide."

Shortly before midnight "Buck" Wallace, superintendent of police, made this remark to the newspaper men at headquarters, then walked into his private office to put on his coat and cuffs to go home. There was a fuss, and when the boys rushed in they found Wallace overturning chairs and tables in mad haste. He explained that while he had been talking some one had come in and stolen his diamond cuff buttons.

#### DR. ZEIGLER'S CLAIMS

Bill Filed in Suit Against McVicker Estate Amounts to \$126,000 at Chicago.

Chicago, Dec. 23.—Dr. L. C. H. E. Zeigler in the probate court has filed a bill of particulars in connection with his claims against the estate of the late Mrs. Harriet G. McVicker who died recently in California. Mrs. McVicker was the widow of the theatrical manager, J. H. McVicker.

Dr. Zeigler's claims aggregate \$126,000. He submits copies of alleged contracts existing between himself and Mrs. McVicker.

#### Murderer Jones Dead.

Lockport, N. Y., Dec. 23.—Fred Jones, who murdered Mrs. John Goodrich and Constable Gray of New Fane Wednesday, died this morning without having gained consciousness. Jones was jealous of the woman.

#### NEW WAGE SCALE

Of Bridge and Structural Iron Workers is Announced by the Executive Committee.

Chicago, Dec. 23.—A new wage agreement for 12,000 bridge and structural iron workers throughout the United States has been decided upon by the executive committee of the International Association of Bridge and Structural Iron Workers, which has been in session in Chicago for the last 10 days. The scale provides for 25 to 45 cents an hour, according to locality. In some districts the new scale provides an increase, while in others it is about equal to present rates of wages.

In the Chicago district, where a scale of 45 cents has been agreed upon, the states of Illinois, Indiana, Ohio, Missouri, Kansas, Wisconsin, Minnesota and Michigan are included. Members of the committee said that all employers would be asked to sign the agreement, and that strikes would be called wherever the request was refused.

The French minister has demanded that the sultan take action for the protection of the consul at Alcazar. A detachment of imperial troops has just left Tangier, presumably for Alcazar. It is understood that the movement of the tribesmen is prompted by revenge.

## FORGERY CHARGE

An Indictment is Returned Against Dr. Chadwick

IS ON HIS WAY FROM PARIS

And Will be Arrested in New York—Accused of Forgery Carnegie's Name.

Columbus, O., Dec. 23.—Application from Cleveland for a requisition on the Governor of New York for the return to Cleveland of Dr. Leroy S. Chadwick reached the Governor's office this morning. The governor is now in the east and no action will be taken until he returns early next week. It is said, however, that the requisition will be issued.

Cleveland, O., Dec. 23.—The Cuyahoga county grand jury returned against Dr. Leroy S. Chadwick and his wife, Mrs. Cassie L. Chadwick, a joint indictment on the charge of having forged and uttered a \$5,000,000 note signed "Andrew Carnegie."

Dr. Chadwick is on his way to New York from Paris, and is expected to land next Wednesday. As soon as the indictment was returned Sheriff Barry of this county made arrangements to secure Dr. Chadwick's extradition. He will meet the steamer on its arrival.

This is the third time that Cassie Chadwick has been indicted by the county grand jury, but it is the first instance of her husband's name appearing in the proceedings in the case.

The indictments already returned against Mrs. Chadwick are similar to the one voted, except that they cover notes of \$250,000 and \$500,000 signed Andrew Carnegie.

The grand jury has spent more than two weeks in its investigation of the Chadwick affair. It is understood that it was mainly on the testimony of President Beckwith of the Citizens' National bank of Oberlin, O., which failed recently, that the jurors voted to indict Dr. Chadwick.

"There are many things which Dr. Chadwick will have to explain, and I hope he will do so," said Prosecutor Keeler. "Dr. and Mrs. Chadwick may be tried on the indictment separately or together. Each has a right to trial singly if it is desired. The jurors will finish their work Saturday. The Chadwick investigation, so far as this jury is concerned, is ended. But I can not say that this concludes our inquiry into the matter. It is possible there may be other developments."

Nathan Loeser, receiver for the Chadwick property, who is trying to locate the assets for the benefit of creditors, said that he had obtained information concerning the whereabouts of the trunk and satchel belonging to Mrs. Chadwick, and which were taken from the Holland House during her stay there. He expects to recover them, but does not know if they contain valuable.

Mrs. Chadwick was reclining on a couch before her cell in the jail when she was informed of the action of the grand jury. She appeared not the least concerned, and asked only if there had been any one else indicted, mentioning the name of a person who has figured in the case to some extent. She declined to make any comment, saying: "It will do me no good to discuss my affairs in the newspapers. There has been so much misrepresentation that I have decided to do no further talking, and I am also acting on the advice of my attorney in this respect."

Newton to Sue Chadwick.

Boston, Dec. 23.—On behalf of Herbert D. Newton it was authoritatively stated that civil proceedings in his interest would be instituted against Dr. Leroy S. Chadwick upon the latter's return to this country. The action will be brought for the recovery on paper given by Dr. Chadwick to Mr. Newton, and having a face value of \$90,000. Mr. Newton has cabled to Southampton and satisfied himself that Dr. Chadwick is a passenger on the Hamburg-American line steamer Pretoria, which has sailed for New York.

TOWN BESIEGED

Moroccan Tribesmen Demand Surrender of French Consul—Promised by Revenge.

Tangier, Dec. 23.—A courier from Alcazar, about 16 miles northeast of Tangier, states that tribesmen have surrounded Alcazar and threaten to sack the town unless the French consul and one British subject are handed over to them.

The French minister has demanded that the sultan take action for the protection of the consul at Alcazar. A detachment of imperial troops has just left Tangier, presumably for Alcazar. It is understood that the movement of the tribesmen is prompted by revenge.

## PRINCESS

Is in Leipsic in Defiance of the Order of Expulsion.

Leipsic, Saxony, Dec. 23.—Crown Princess Louise is still in Leipsic in defiance of the government's decree of expulsion. She is residing in Lawyer Zehme's house and intends to stay a few days before proceeding to Italy.

At a meeting of the Saxony cabinet today it was decided not to enforce the decree of expulsion immediately as a concession to the popular feeling. An outbreak would be inevitable if the decree were enforced. The influence of the Princess over the people alarms the king's government. The report was current this morning that the Princess had been expelled.

#### IN A TELESCOPE

The Mother Carried Her Babe All the Way From Nebraska.

Goshen, Ind., Dec. 23.—Mrs. Frank Osborne, of Washburn, Ohio, caused great commotion at the Big Four passenger station here yesterday when she alighted from a train with her two children and was carrying a third, about two months old, in a telescope. Breathing facilities were afforded the babe by holes cut in the baggage. Mrs. Osborne was en route to her home from Lodi, Neb., and said she had brought the child the entire distance in 1900, but less in 27. Their total gains were 30,792, and the total losses 1,291,491; net loss, 1,260,698. Roosevelt carried 32 states against 28 by McKinley, and has 336 electoral votes under the apportionment of 1900. McKinley had 292 under the apportionment of 1880, there having been an addition of 29 by the last apportionment. Parker carried 13 states against 17 by Bryan, and has 140 electoral votes. Bryan had 155 under the apportionment in force in 1900.

Roosevelt received over all 1,746,768 and over Parker 2,547,578. In 1900 McKinley had 467,046 more than all the other candidates, and 859,984 more than Bryan. The vote for Roosevelt was 409,822 more than for McKinley, while that for Parker was 1,277,772 less than for Bryan. McKinley polled more votes than Roosevelt in Alabama, Georgia, Kentucky, Louisiana, Maine, Maryland, Mississippi, New Hampshire, North Carolina, South Carolina, Tennessee, Texas and Virginia. Roosevelt got more than McKinley in the other 32 states. Parker received more votes than Bryan in Delaware, Georgia, Mississippi, New Jersey, New York, Rhode Island, South Carolina, and West Virginia, while Bryan got more than Parker in the remaining 37 states.

Four years ago the Socialists had an electoral ticket in 32 states and polled 87,769 votes. This year they had a ticket in the 45 states, and the Debs vote was 391,587.

In 1900 over 5,000 votes were polled in only California, Illinois, Massachusetts, Missouri and New York. In November Debs got over 5,000 in California, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Jersey, New York, Ohio, Oregon, Pennsylvania, Utah, Washington and Wisconsin, the largest number, 69,225, in Illinois.

Watson received his largest vote in Georgia, the total of that state, 22,634, with 20,508 in Nebraska being nearly one-third of his aggregate, 61,637. Parker polled 50,218 in 1900. The Prohibition vote in 1900 was 208,781; in November, 260,303, a gain of 51,512. The vote of the Socialist Labor party in 1900 was 39,944. This year it was 33,453, a loss of 6,349.

At the time of his death Brigg was grand secretary of the Scottish Rite Masons and secretary of the Masonic Temple Association. He was called to the 32nd degree in September, 1885.

Briggs was known all over the United States as an after dinner speaker and teller of rare good stories. The funeral will be at 2 p. m. Saturday from the family residence.

### SAPLING BROKE

Eli Wince Was Struck a Terrific Blow on the Head Rendering Him Unconscious.

Utica, O., Dec. 23.—Eli Wince got a knock out blow one day last week while he was with two companions chopping wood in the woods. A large tree had been felled over a sapling, which it bent into a bow. Eli was cutting the sapling off near the point where the tree lay across it, and having cut nearly through he was considering whether he dared give another blow, when the sapling broke and the loose end flew up with tremendous force. When Dr. Smith reached Mr. Wince's home a couple of hours later, Eli was just becoming conscious, he having been as one dead up to that time. The sapling had struck him on the side of the face, missing his eye, but cutting his cheek and lip.

### OHIO SOLDIER

Will Sleep Himself to Death, as the Result of Exposure to the Philippine Climate.

San Francisco, Cal., Dec. 23.—John A. Smith, an Ohio soldier recently sent home from the Philippines, is in the insanity ward of the city hospital a victim of a peculiar malady brought on by exposure. He sleeps constantly except when, with great difficulty, the attendants succeed in arousing him enough to get him to eat. The surgeon thinks he will sleep himself to death. Smith's malady is known as the sleeping sickness, a disease peculiar to tropical Africa. City Physician Stevens says:

The climate conditions of Luzon are known to have a debilitating effect upon those from the more temperate zones, but of all the sick soldiers from the Philippines this is the first case of the kind that has come under my notice."

Fellow soldiers of Smith got away with \$250 which the sick man had.

The time is near at hand when all the world, more or less, is something of a child.

Doomed Murderer at Ohio Penitentiary Begs for Cheese of Loud Small-Minded Kind.

Columbus, O., Dec. 23.—A Limburger cheese feast was provided for a man under sentence in the penitentiary annex. Herman Hamilton, made the plea to Warden Gould for the Limburger and he was accommodated. Never before in the cimex has an inmate asked for Limburger.

Of the trio that are at present confined in the annex, Philip Nagel, who was recently granted a stay of execution by Governor Herrick, has made a unique experience. Nagel has been confined in the annex for almost two years, and during that time he has been called upon to say goodbye to 12 of his fellow inmates.

The date for Nagel's execution has been set for January 20, and Alexander Guy is doomed to go the same night. One week later Hamilton is to go to the chair, and then for the first time in months the death room will be unoccupied.

**Crisis In Morocco.**

Paris, Dec. 23.—A dispatch from Tangier says: "Owing to the proposal of the Sultan of Morocco to dispense with the services of the French military mission, the French minister informed the council of ministers that his government had instructed him to defer his departure for Fez pending further orders. The minister has instructed the military mission to leave Fez immediately for Tangier, and has written to the French vice consul to leave 12 days after receipt of the letter, with all Frenchmen in the city. This opens a crisis which will become serious should the sultan remain obdurate."

**Thousands Have Kidney Trouble and Don't Know It.**

**How To Find Out.**

Fill a bottle or common glass with your water and let it stand twenty-four hours, a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

**What to Do.**

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail.

### STEEL TRADE'S FUTURE

Outlook For Industry as Viewed by Charles M. Schwab.

### FAR BRIGHTER THAN EVER BEFORE

**Former President of Steel Trust Believes That the Year 1910 Will See United States Consuming Over 25,000,000 Tons of Steel—Wooden Sleepers on Railroads Doomed.**

Charles M. Schwab, former president of the billion dollar steel trust, recently gave an interview to the New York American on the steel trade of the United States.

"The prospects were never greater than at this time," he said. "Indications as I read them point to high tide in the steel business for the coming year. I cannot see further ahead than that at this time, but I am sure that the works in which I am interested are receiving today approximately two and a half times as many orders as they can attend to at this time.

"So far as I can foresee the trade in this country will soon realize that its sale of steel must be confined to the United States alone and that the market abroad will be abandoned through conditions just beginning to develop.

"I never regarded the export of steel as a very important factor in the steel business for this reason: Our principal market of export in the past has been England and its colonies because our steel was there admitted free of duty.

We never exported much steel to Austria, France or Germany. Now, Chamberlain is doing for England and the colonies and will do for England and her colonies just what the other countries have done, and that is protect the home industry. That is sure to come about in England and her colonies. England will place a preferential tariff on her colonies for England's manufacture, so that the future development of steel for the United States in export will not grow as rapidly, but it will be more than made up by the possibilities of home consumption.

"In 1880 this country consumed only about 1,000,000 tons of steel. Last year about 16,000,000 tons of steel were consumed, and it has been gradually increasing since then.

"I believe that the year 1910 will see this country consuming over 25,000,000 tons of steel, and when this country does consume any such amount of steel your mines and railroads and transportation and your milling facilities will be found inadequate to meet the demands.

"The reason for this is clear. Every railroad that puts down steel rails has to renew them every seven or eight years. It takes 2,000,000 tons of rails annually to replace those worn out in America alone. That will increase from time to time. Five or ten years ago structural steel was in its infancy; today structural steel is the biggest branch of the steel business. Seven years ago the steel car was not known; today it is taking 2,500 to 3,000 tons of steel daily. The steel sleeper, the tie, has just started. They have put the first down only this year. In five years from now there will be more use for steel ties than for rails. In others words, I feel that we are just beginning the steel business in this country and that we are not going to stop. We are going to go on and on until it will run by its own momentum. You have got to replace these things, and the future, to my mind, is going to see the steel industry far greater than ever before.

"As a matter of fact, there has always been a vast amount of misconception as to this foreign market for steel. It has never been anything more than a 'filler.' It has enabled us to keep our plants running when otherwise they would have been closed up, and in this way has saved us from great losses. You must understand that to close a great steel plant down for a month means a greater loss than the man who is not in steel can comprehend. Even though we sold steel at what it cost to make it, it would be worth while to keep our plants running during those times when they would otherwise be closed. For this reason the foreign markets have always been of great advantage in that way. They have enabled us to keep our works going and our men employed, and we have been swung across periods of what would have been great industrial depression but for the ability to sell our surplus stock abroad. When we can get the home market we naturally prefer it, however. Steel sold abroad is merely an incident in the trade."

**To Choose Fourth Major.**

Delegates from all the companies of the Fourth regiment will meet Sunday between 3 and 5 p. m. at the armory to nominate a major. The time of Major Elmer Blizzard of Newark, the ranking major of the regiment, has about expired. His successor will be elected for life. The election will be held December 23 from 4 to 9 p. m., and the indications are that Major Blizzard will be re-elected.—Columbus Citizen.

**Central Building Contributions.**

Truant Officer Jones on Friday finished the distribution of sixty bundles of clothing and forty baskets of provisions furnished by the children who attend school at the Central building on Church street. Mr. Jones furnished Miss Haughey, principal of the Central building, with a list of families needing assistance and Miss Haughey sorted the contributions made by the children and made up the packages in suitable size according to the needs expressed by Mr. Jones. Miss Haughey has given much time to this work and she, together with the children of the Central building is to be congratulated for the good work done. Mr. Jones also deserves much credit for his untiring effort.

**Grain at Chicago.**

Chicago, Dec. 23.—Chicago is experiencing a deluge of grain, and grain dealers are anxiously urging the railroads to come to their relief. Between 5,000,000 and 6,000,000 bushels of grain from the west is now awaiting transportation to points east of Chicago. The railroads are doing all in their power, but were compelled to refuse 5,000 cars of grain that were offered for transportation. The inability of the roads to handle the stuff is laid to the lack of equipment.

**Strike Against Open Shop.**

New York, Dec. 23.—A strike against the "open shop" was begun here by the United Cloth Hat and Capmakers' Union. In 19 factories notices were posted announcing that the shops would hereafter be "open." The employers, acting under orders from their unions, at once quit work. The unions claim to have 1,500 capmakers out.

George B. Cox and Herrick.

Some doubt is beginning to spring up in the minds of well known Republican leaders in this state regarding the attitude of George B. Cox toward Governor Herrick. Cox has been claimed with great enthusiasm by the friends of the Governor ever since any question was raised regarding a renomination. He has been quoted as indirectly favoring Herrick and his alleged attitude in this regard has been widely advertised by the Governor's supporters. It is now understood, however, that in a great deal of this publicity the wish has been father to the thought. On the best of authority it may be stated that Cox has been misrepresented; that he would prefer to have another candidate than Herrick and that his support is not today pledged to the Governor. What course he may take later on is a different story.

#### BY A FIRE

Hospital and Prison Inmates Were Thrown Into a Panic at Midnight.

New York, Dec. 23.—Fire in the laundry of the hospital on Blackwell's Island last midnight threatened the penitentiary and city hospital. In the laundry 65 laundrywomen were sleeping. These women ran out screaming and the panic seized 750 patients in the hospital. The flames burst from every part of the laundry at the same time, but the wind carried them from the building.

New York City was asked for assistance, and a fire boat and a fire company and a squad of police reserves were sent. The police surrounded the penitentiary inmates who were in the greatest excitement and fear. Keepers went among the prisoners and assured them there was no danger, but it was only when the flames died out that they were quieted. In the hospital the excitement was greater. Many patients are bedridden and hundreds of others are old and feeble. The attendants prepared these patients for removal. The home for the aged and infirm near the laundry was in such peril for a time that the tottering old men and women were led out.

#### LITTLE PET

Of Bailey's First Wife Became His Bride After He Was Made a Widower.

#### CONSPIRACY CHARGE

IS ENTERED AGAINST PROMINENT OHIO CITIZEN.

Warden Gould of State Prison and Ohio Bankers Are Named as the Defendants.

Columbus, O., Dec. 23.—Sensational allegations are made in a suit filed in common pleas court here by James T. McBride, a New Jersey dentist. McBride brings the action against Orrin E. Gould, warden of the Ohio penitentiary; H. S. Willard, Wellston, O.; J. W. and Henry J. Bannon, Portsmouth, O.; Judge W. H. Middleton, Waverly, O.; Perry Smith, Zanesville, O., and William R. Sprague of Portsmouth, O., asking \$100,000 damages for alienation of his wife's affections and alleged conspiracy in securing her a divorce and the custody of their minor children. H. S. Willard is president of the First National bank at Wellston, and is a half-brother of Warden Gould; J. W. Bannon is president of the First National bank of Portsmouth; Henry J. Bannon is a prominent attorney and congressman from the Eleventh district; W. H. Middleton was formerly a common pleas judge in the Seventh district, Second subdivision, residing at Waverly. Sprague and Smith are attorneys.

In his petition McBride alleges that Gould and Willard jointly assisted in the alienation of his wife's affections, and that Judge W. H. Middleton, Henry J. and J. W. Bannon, as attorneys for his wife, and Perry Smith and William R. Sprague, as attorneys for himself, entered a conspiracy in which his wife was granted a divorce virtually without a contest.

It is charged in the petition that Judge Middleton, before whom the divorce proceedings of Mrs. McBride were conducted, was influenced by the present warden of the Ohio penitentiary. It is also claimed that the attorneys of the husband, Perry Smith and William Sprague, failed and refused to allow the husband to go on the witness stand to testify in his own behalf, and that they practically threw up the case. The petition recites that the plaintiff married Lovinia Gould Nov. 20, 1891, and that the warden is a brother, and the defendant, Willard, a half-brother of the wife. The two Bannons mentioned in the petition are said to be relatives of the Goulds and have been for years their personal friends and attorneys.

McBride's charges are pronounced absurd by Warden Gould.

#### BY BRIBERY

Russians are Accused of Having Obtained False Statement from the Fishermen.

London, Dec. 23.—The sensational press of England directly charges the Russian government with using underhand means, by bribery and intoxicants, to secure false statements from men of the Gamecock fishing fleet. The Russian consul at Hull said the boatswain of the Ava was brought to his office, but that he sent him to the commissioner of oaths, where, the consul says, the boatswain swore he saw a Japanese torpedo boat with the trawlers. The consul says he knows other trawlers who are ready to make similar statements, but that they are afraid of the consequences. The consul indignantly denies that he has made any attempt to induce fishermen to make statements. He says that when informed of the nature of the statement the boatswain of the Ava intended to make it was his duty to his government to render every assistance.

Object of Jap Squadron.

St. Petersburg, Dec. 23.—The announcement that four Japanese cruisers and 12 torpedo boats are proceeding west from Singapore is received here with much interest. It is not believed, however, that such a small squadron can have been sent out by Japan with any idea of engaging in offensive operations, but it is regarded as more probable that it is the purpose of this squadron to keep surveillance over the two detachments of the Russian fleet, which are expected to soon unite in the neighborhood of Madagascar. It is generally believed that Vice Admiral Rojestvensky intends to establish a naval coaling base on some small island between Madagascar and the Philippines, and that the Japanese cruising squadron hopes to mark down the rendezvous for Vice Admiral Togo's information.

Freights in Collision.

Montgomery, Ala., Dec. 23.—In a head-on collision between a freight and work train on the Atlantic Coast line, eight miles from here, Jim Rhodes, flagman, of Terre Haute, Ind., was killed, and Henry E. McDonough, engineer; Carl Lally and Thomas Walker, firemen, and C. P. Ward, flagman, were seriously injured.

Rails on the Track.

Fort Wayne, Ind., Dec. 23.—An attempt to wreck the southbound Grand Rapids and Indiana passenger train was prevented when an extra freight train crashed into pile of rails near Wallen, eight miles north of this city. The train was ditched but no one was injured. There is no clew to the miscreants.

Hugh McLaughlin's Estate.

New York, Dec. 23.—Announcement was made that the late Hugh McLaughlin, for years the leader of Brooklyn Democratic organizations, left an estate valued at \$2,000,000. It will be equally divided between his widow and his two daughters, Mrs. Laura Roach and Mrs. William Courtenay.

Brewery Burns.

Iowa City, Ia., Dec. 23.—The Iowa brewery burned here. Loss \$10,000, insurance \$20,000.

Marriage in the Tombs.

New York, Dec. 23.—By a marriage of two prisoners in the Tombs prison the case of the United States authorities against four persons alleged to have been involved in counterfeiting becomes curiously tangled. Frank Schleiman and Elizabeth Rubea, who were in the prison with two others after a raid by the federal authorities, asked permission of the United States district attorney for the marriage, and secured it. The marriage took place in the chapel of the Tombs, the prison chaplain officiating. It was by Miss Rubea's admissions in the police court to the effect that they were trying to get money to be married which caused the two to be held. Under the law a wife can not testify against her husband, and her testimony may be disallowed.

Battling Nelson's Charge.

San Francisco, Dec. 23.—Battling Nelson, the pugilist, applied for warrant for the arrest of Ted Murphy, who has been his manager, alleging that Murphy had left the city, taking with him \$10,000 belonging to Nelson. Murphy is believed to have left on the Santa Fe train.

prominent, since the war, having been congressman from his district, surveyor of customs, collector or internal revenue for the Albany district and United States consul in Hamburg, Germany.

Twenty years ago he and his late wife became acquainted with the family of Mr. John H. Harding, at Hopewell, Va. Little Miss Harding was but 13 years old when this acquaintance first began. She was a winning child, and Major and Mrs. Bailey immediately adopted her as their special pet. During all this time the Major and his wife made annual visits to their Virginia acquaintances, and, after Mrs. Bailey died, a little more than two years ago, the Major found that he had come to look upon his little girl friend in a very different light.

#### A LITTLE JAP

Easily Vanquished Some of the Giants of New York's "Finest"—A Professor of Jiu Jitsu.

New York, Dec. 23.—"Ajax" Whitman, the world's former "strong man," and now of the police force, went down to ignominious defeat before the science of Jiu Jitsu in a trial at police headquarters with Higashi, a 120 pound Japanese, who is the leading exponent of the Japanese science of wrestling and trickholds in this country.

The trials had been arranged by Commissioner McAdoo who has in mind the introduction of the game in the department.

Higashi is only 5 feet 3 inches in height. He was trained at the University of Doshisha at Kyoto, Japan. Besides Whitman four other policemen had been ordered to come to headquarters for trial. They were John J. Flanagan, champion weight thrower of the world, who is 5 feet 9, and weighs 220 pounds; Adam Streubel, a distance runner and all-round athlete, who stands 5 feet 10 inches in height and weighs 160 pounds; John F. McGinty, former welter weight amateur champion boxer of the country, who stands 5 feet 8 1/2 inches in height and weighs 200 pounds, and Chas. Hammer, former middle weight champion boxer of the country, who stands 5 feet 11 inches in height and weighs 200 pounds.

"Ajax" did not enter into the spirit of the game, as he resisted the Japanese' efforts instead of yielding. The exhibition was held in the trial room. Rugs were placed on the floor. "Ajax" was thrown twice flat on his back, and finally was held in such a grip that his tongue protruded from his mouth and his face became purple. He then wanted to show the Japanese some of the tricks that he knew about wrestling, but Higashi replied that if he closed with him in real earnest he would break some of the policeman's bones. Inspector Cortright ordered "Ajax" to quit, and Policeman Kammer took his place. He was thrown over Higashi's head a dozen times in as many minutes by different holds. None of the other men were called upon.

A. S. Bagby, Sr., of Hawkinsville, Ga., 72 years old, was struck by a rail and his knee and ankle badly injured. One bottle of Hamlin's Wiz ard Oil gave him immediate relief.

The afternoon was spent in shooting at turkeys among the members of the club.

Demand Reform.

Moscow, Dec. 23.—Students of the University of Moscow adopted resolutions denouncing the rector for prohibiting their meetings, declaring their determination to unceasingly strive for the liberation of the oppressed of the fatherland, and declaring that if they are punished for assembling they will organize manifestations in conjunction with the workmen. Several groups of citizens have signed an address to the municipality expressive of the strongest sympathy and support of its claim for constitutional reform as embodied in the resolutions adopted by the town council on Dec. 14, and promising every effort in furtherance of these reforms, which the address declares, are desired by the whole of the Russian people.

New York, Dec. 23.—No evidence warranting indictments in this county was presented to the grand jury in connection with the charge that a bribery fund had been collected by the Liquor Dealers' Association to influence legislation at Albany, according to presentment handed in. The presentment described as "shocking" the facts disclosed by the evidence, and after reporting that it has been impossible to return indictments in this county requests that all the evidence, 175 type-written pages, be sent to the governor and to both branches of the legislature, to do with as they see fit.

#### Suit Against General Brooke.

New York, Dec. 23.—A complaint by Countess Maria Francesca O'Reilly De Camara, who seeks to recover \$250,000 from Major General John Brooke, formerly governor general of Cuba, was heard in the United States district court. The countess alleges that General Brooke abolished the office of high sheriff of Havana, which she claimed by inheritance, and from which she derived fees for supervising the slaughter of cattle. General Brooke contended that he had, under the treaty with Spain, the right to abolish the office.

#### Activity Near Mukden.

Mukden, Dec. 23.—There was more artillery firing from Poutiloff hill on Dec. 21, which resulted in dispersing a party of Japanese who were trying to entrench in front of that position. Chinese report that Field Marshal Oyama and his staff have established headquarters at Liao Yang, and that the Japanese are constructing new forts around the city. The Japanese are reported to be suffering severely from the cold and sickness in the vicinity of Palasandzi and Shiklikhe, where it is said they lost 2,000 men in a single week.

Fog Still Envelops London and Environs—As Yet There Is No Sign of Lifting.

London, Dec. 23.—There is as yet no sign of the lifting of the fog which envelops the kingdom. The absence of wind throughout Great Britain is almost unprecedented. Places of amusement are almost deserted, and shopkeepers are loudly lamenting the absence of the usual Christmas customers. Railway traffic, both for long and short distances, is almost paralyzed. A condition resembling chaos prevails in the postal service. With the continued accumulation of Christmas parcel and letter traffic it is quite impossible to preserve even a semblance of punctuality. Mail boats in all directions are similarly disorganized. The streets of London present remarkable scenes. Nothing is visible except linkboys' torches and the occasional flare of big creosote lights, which the authorities are beginning to employ to assist traffic.

A German in Mannheim, Baden, is said to have invented a cheap and effective substitute for leather and to have sold his invention to an American firm for \$200,000.

Battling Nelson's Charge.

New York, Dec. 23.—By a marriage of two prisoners in the Tombs prison the case of the United States authorities against four persons alleged to have been involved in counterfeiting becomes curiously tangled. Frank Schleiman and Elizabeth Rubea, who were in the prison with two others after a raid by the federal authorities, asked permission of the United States district attorney for the marriage, and secured it. The marriage took place in the chapel of the Tombs, the prison chaplain officiating. It was by Miss Rubea's admissions in the police court to the effect that they were trying to get money to be married which caused the two to be held. Under the law a wife can not testify against her husband, and her testimony may be disallowed.

Battling Nelson's Charge.

San Francisco, Dec. 23.—Battling Nelson, the pugilist, applied for warrant for the arrest of Ted Murphy, who has been his manager, alleging that Murphy had left the city, taking with him \$10,000 belonging to Nelson. Murphy is believed to have left on the Santa Fe train.

IS MISSED BY MURDERER OF MR. TANNER, BOOK AGENT.

But Farm Hand Spencer Must Go to the Penitentiary for the Balance of His Life.

Zanesville, O., Dec. 23—Guilty of murder in the first degree on the third count of the indictment, with a recommendation for mercy.

Such was the verdict returned by the jury in the Spencer murder case at 5 o'clock yesterday afternoon, after the jurors had been deliberating on the fate of the prisoner since 9:10 o'clock yesterday morning.

The verdict means that Spencer, the farm hand, will go to penitentiary for life, without ever a hope of parole or pardon.

Although he listened to the verdict with almost unmoved countenance, at 7 o'clock last night Spencer was crying like a baby, and threatened to kill himself in the hearing of Sheriff Elliott's wife, who was passing through the jail corridor.

Owning to no provisions being made by the county commissioners, no watch was kept over the prisoner throughout the night, and it was feared by Sheriff Elliott that Spencer, in his desperate mood, might hang himself by means of making a rope of his bed clothing.

Committee Named by the Newark Trades Council to Take Some Action.

At a meeting of the Trades and Labor Council Thursday night the question of the Hospital for the City of Newark was up for consideration, for the construction of which nearly two years ago a bond issue was authorized by an overwhelming vote of the people. The Trades Council was concerned to know why no action has been taken by the officials of the city with a view to carry out the express wishes of the people on this subject, and a committee was appointed, under instructions and authority to investigate the cause of the delay and to take such steps as are necessary and proper to securing some progress on the part of the city in the construction of this much needed public institution.

The committee selected consisted of J. W. Adams, Chairman; J. A. Donahue, secretary; John L. Dollison, Benj. Clark, Harry Schrum.

**MASONIC MEETING**

Master's Degree Conferred and Jewel Presented to Eight Past Masters Thursday.

Thursday afternoon and night witnessed an important meeting of Acme Lodge, No. 584, F. &amp; A. M., of this city. It was the occasion for conferring the Master's degree on a number of candidates, and also for the presentation to the living Past Masters of Acme Lodge, eight in number, with the Past Master's jewels, as a recognition of their services in behalf of that lodge.

The meeting was largely attended, not only by the members of Acme and Newark lodges, but by Masons from all the surrounding lodges.

The meeting opened at 3 o'clock in the afternoon, and the first section of the Master's degree was conferred on A. V. Davis, H. W. Gardner, V. D. Lane, D. H. Miller, Ralph Norpell, and Henry Weber.

After the work in the afternoon a recess was taken and a fine lunch was served in the dining room, after which the lodge was reopened and the work finished. At the conclusion of the work the Past Master's jewels were conferred on Past Masters E. H. Franklin, L. P. Schaus, W. W. Neil, J. M. Penney, Harry Swisher, C. L. H. Long, C. H. Bolin and J. L. Worth, by F. L. Peggs in an appropriate address, to which each candidate responded.

After the presentation of the jewels a sumptuous banquet was served in the dining room.

STOLEN FROM NEWARK HOMES ARE RECOVERED.

Girl Who Has Been Employed at Several Residences Produces the Stolen Goods.

Officer James Callan for the past few days has been doing some very clever detective work in recovering property stolen by Blanche Knight the 16-year-old domestic who stole property from every home where she was employed. On Thursday Officer Callan brought the girl to the office of Chief Sheridan where she was submitted to the sweat-box methods and told of considerable other property stolen by her besides that from Mrs. John Gough and Mrs. T. M. Edmiston.

Among the articles recovered were a lady's blue emerald watch, stolen from the home of Mrs. Frank Mylius, of Moull street, and a gold-mounted comb belonging to Mrs. D. F. Dowden of Second street.

As the property has been recovered the girl will not be prosecuted.

A Veteran Sentenced to be Shot and Pardoned by Lincoln, is Now Accused.

Pittsburg, Pa., Dec. 23—Geo. Smith, a veteran of the civil war and who was found asleep on duty before Alexandria Va., in 1861 and sentenced to be shot, being pardoned later by President Lincoln, has been arrested late charged with perjury, and placed under heavy bail.

Smith, it is alleged, deserted his wife about 25 years ago. She applied for a soldier's widow's pension, but it was found he lived. Then, under the law of 1859 she applied as a pensioner's dependent wife for one-half of the sum paid her husband. Smith is alleged to have made affidavit that she was not his wife.

The couple met in the office of United States District Attorney Young yesterday afternoon, but there was no joy in the meeting, for the wife went after him hot foot, and Smith fled to his home in McKeesport, where he was later arrested by a United States marshal on the charge of perjury.

## RAILWAY RUMBLERS

BIG ORDER PLACED FOR CARS BY TEXAS PACIFIC.

Change for Loree—Railroad Sold—The Big Engine Here—Railway News Paragraphs.

The Cincinnati New Orleans and Texas Pacific railroad company yesterday let a contract for 1,500 freight cars. The cost of these cars to the railroad company will be about \$1,600,000. The contract calls for 1,000 box cars, 200 gondolas, 200 coke cars and 100 steel ore cars.

### Change for Loree.

Baltimore, Dec. 23—Third Vice President Potter, of the B. & O. railroad, announced that on January 7 W. C. Loree, general superintendent at Pittsburg, will be transferred to Wheeling, W. Va., as general superintendent of the Wheeling division of the road. Mr. Loree will be succeeded by Robert Finney, the present general agent at Pittsburg.

### Railroad Sold.

Ottawa, O., Dec. 23—The Ottawa and New York railroad extending from Ottawa to Tupper Lake, was sold yesterday at St. Regis for \$1,000,000. It was bid in for a committee of the bondholders, most of whom are members of the New York Central Board of Directors.

The big Mallet Articulated compound engine built for the B. & O. railroad company by the American Locomotive company, and which bears the number "2490" arrived here Thursday evening. It came in "dead" from St. Louis, where it has been on exhibition, and lay here over night, as it does not travel at night. It is being taken east. During its stay in Newark it was examined by a large number of railroad men.

### Mr. Fitzgerald's Brother Killed.

Mr. J. P. Fitzgerald, train master for the B. & O. railroad company at this point, has received word that his brother, Edward Fitzgerald, a well known railroad man of South Chicago, had been killed Thursday afternoon in the yards in South Chicago. No particulars have been received.

### Farmer Was an Expert.

Sandusky, O., Dec. 23—Hoist on their own petard, caught like Johnnie and Willie in the joke trap they had set for "Foxy Grandpa," was the fate of attorneys in court yesterday when they sought to qualify a farmer as an expert witness on locomotive construction and spark arresters. He toolled them by qualifying and the mirth that had been displayed by the lobby was turned into surprise.

P. J. Miller is the plaintiff in an action against the B. & O. railroad company to secure \$1,600 damages alleged to have been sustained by a fire. He is a farmer. He holds that the blaze which damaged his property was caused by sparks from a passing B. & O. locomotive.

Everybody in the court room smiled when the attorneys for the railway company sought to qualify the agriculturalist as an expert witness on railway and rolling stock construction.

"Will you qualify?" asked the legal lights.

"Assuredly," replied Milan.

Milan was sworn and his testimony was accepted as that of an expert. The reason? He showed that he had started as a shop boy in the shops of the old Mad river railroad, in this city, had risen to the position of engineer and later had become master mechanic of the Central railroad of Georgia, master mechanic of the National railway of Mexico and general manager of the Rio Grande and Eagle Pass railway. Then he had retired to a farm in this country. His testimony was accepted.

The railroads have posted special orders notifying yard men to be extremely careful that no cars loaded with Christmas traffic are delayed, and further urges that every possible effort be made for the prompt delivery of Christmas shipments.

## WATER COMPANY

### MAKES STATEMENT THROUGH ITS ATTORNEY. J. D. JONES.

Who Replies to the Statement Made in Thursday's Paper by Solicitor Smythe.

(By Judge John David Jones.) Candor is the first requisite, to induce confidence in any public statement.

Mr. Smythe, when he wrote his defense or explanation of the clandestine bond sale, published in my issue of Thursday, exhausts almost his entire space, in an attempt to arraign Mr. Veach and the Water company of high crimes and misdemeanors. This is simply an attempt to take the public attention away from the iniquity of the illegal and secret sale of the bonds effected by Mr. Smythe and his confederates. Does it not remind one of the habit of that marine animal, which, when in danger, throws around itself an inky cloud only for the purpose of concealing itself? What Mr. Smythe may pretend is in his mind, as to the schemes and plots of the Water company is not the cause of the present public sensation, nor the occasion of Mr. Smythe's attempt to explain. The explanation, in order to explain, must account for the haste and secrecy of the private sale of the bonds; it must show that such private sale was authorized by law; it must show, that it was made with due regard to the present interests of the city, and for the best price obtainable in the present juncture of affairs. It is not enough, even if true, that it is the best price ever obtained by the city, but it must be shown that it was substantially as good a price as the city could obtain now.

If this secret sale was made without authority of law; if it was made secretly, and in great haste, and for \$7,000 or \$8,000 less than a public sale would have produced, and without any consultation with other persons known to be desirous of becoming purchasers and without notice to them or any of them, then what language is strong enough to express the infamy of the transaction?

Mr. Smythe says, that it is easy for men to say now when there are no bonds to sell, and no certified check to put up, and no responsibility, that they would give more than the premium agreed on with these favored bidders. But I will not consider the exact fact situation, or what men may now say.

I wish to announce to the citizens of Newark, the three following propositions which I stand ready to verify, by the construction of the statute, by the court, where that is necessary, and by proof of the facts where that is necessary. These propositions are:

1. That Section 97, referred to by Mr. Smythe, and quoted by him, does not authorize the private sale of municipal bonds, after the only advertisement has been stopped by the court by injunction.

2. That there were bids handed to Auditor Maurath before the injunction was served, bidding to take the bonds, at a premium ranging from \$17,000 to \$20,000, with the accrued interest, accompanied by the proper certified check.

3. That the agent of a reliable bond firm, and one of unquestionable financial responsibility, requested Mr. Maurath to notify him, if it should be contemplated at any time, to make a private sale. And his firm was not one of the purchasers, and was not notified, although it was known that their agent could have been here in two hours after notice.

As to the first of the above propositions, that the private sale was not authorized, Mr. Smythe says it was, and I say it was not. This legal issue will be decided by the court in proper time.

As to the other two propositions, I stand ready to produce the proof on any proper occasion.

Mr. Smythe's excuse, for entering into a transaction by which the city was made to lose \$10,000, is that he was afraid of the Old Water company. For the same reason, he brought the suit to enjoin the public sale of the bonds, a suit which he says, was utterly absurd. How he can make his conduct in bringing such a suit conform to the ethics of the profession, I do not understand. But passing that, he brought the suit, at the request of the tax-payer, thereby preventing the tax-payer, from bringing it, and then failed to prosecute it, although he had promised to do so. Had the scheme of private sale then already been concocted, and to dismiss that suit, whenever it was ripe to pull off the sale, in secret, to these favored bidders and confederates.

But his published defense is in keeping with the transaction. It is characterized by the same pretenses and trickery.

Why does he say, that the Water company makes 30 per cent on its investment? Why does he say, that the plant subject to the first mortgage bonds of \$25,000 only cost them \$10,000, when he could readily ascertain, that in purchase price, costs and attorney fees they cost \$25,000. Why does he not say to the people, that since the plant was bought at that judicial sale, the company has constructed betterments and extensions, costing from \$50,000 to \$60,000, and that not a cent has been

paid to the stockholders? Any inquiry would have put him in possession of these facts.

Why does he say, that for eight months, the city council has been robbing with the Water company, and trying to thwart the will of the people, that a new plant should be built? Why does he say that the city will own its plant? Is it for the purpose of insuring, that any one is opposed, to the municipal ownership of the water plant. The electors of the city, by a two-thirds vote, authorized the issue of \$300,000 of bonds for the purpose of erecting a plant, but the electorate has not decided that it would not be profitable and proper for the city to buy its old plant, as a part of its new plant? This proposition has never been submitted to a vote, but will have a chance to be, if this conspiracy does not succeed. If the old plant can be bought at a fair price, it would seem to be the thing to do, and save the disturbance, by digging up, of the streets, and avoid the competition of the old company.

Why does Mr. Smythe say, that he advised Jones and Moser that this money could, by order of Probate court, be transferred to a fund to purchase, in order to obtain their consent to the consummation of this deal? Does he believe, that it can be so done?

Why does he say, that the Water company ever tried to entrap the city into exercising its option under the original contract, to purchase, under an appraisement, by experts, when the written proposition of the company was that they should be bound, but expressly providing, that the city should NOT be bound, and Mr. Smythe's certificate is on the back of this proposition, to the effect that the city would not be bound under it?

Why does he intimate, that the company does not want to sell at all, but only by mixing up matters, get a renewal of its lease for twenty years more, when all the efforts of the company have been directed toward a sale?

And how are these two positions of Mr. Smythe consistent, the one, to entrap the city into a position of being bound to take the plant, by purchase, and the other, that the company does not want to sell at all? The Water company does not believe, nor does it believe that any sane man believes, that it or any body else, can stop or retard for any appreciable time, the building of a water plant, if the city or its authorities decide to do so. But it thinks, if the two plants were run in opposition, it would be a serious disadvantage to both, and would very seriously affect the value of its property; it thinks, that if the value of the property, can be fairly ascertained, that the city will be willing to pay the fair price, and avoid digging up the streets and the competitor; it thinks, it has a good and valuable property, and that it can demonstrate that fact, if it has the opportunity to do; if it had not been for the opposition and obstruction of the executive department of the city. All these considerations show, that the company is very anxious to sell.

I do not see, that the sale of \$60,000 of bonds running 19 years, 4 and 1/2 per cent, at a premium of \$10,150 is a better sale than \$55,000 5 per cent, running 14 years, at a premium of \$4,400. I have been led to believe, that the longer the time, and the larger the amount, the larger the premium. Of course the larger interest on the small sale has some effect.

All these things show a lamentable want of candor, on the part of Mr. Smythe. But this lack of candor has appeared all along. It appeared in the report made by the confederates, after their Sunday night trip to Cleveland, to the council, when they reported that the money was in the treasury, when they had no money, only checks.

I write this for the information of the citizens of Newark. I do not claim that I occupy a disinterested position, as I have advised the Water company, in its effort to sell the plant, and am now Mr. Vedakian's attorney, in the present injunction suit. Mr. Vedakian is a tax-payer of this city and is interested in this matter, whether Mr. Smythe has any such interest or not.

JOHN DAVID JONES.

### LARGE TUMOR

Weighing 75 Pounds Removed From a Patient in a Zanesville Hospital Thursday.

Zanesville, Dec. 23.—At the city hospital yesterday, Drs. J. G. F. Holston and Wm. Klemm, of this city, and Dr. C. L. Ephriam, removed a large ovarian tumor weighing 78 pounds from Mrs. Ellen Reed, of Mt. Ephriam. At last accounts the patient was in a fair condition and the chances in favor of her complete recovery are about 10 per cent.

The case was a most desperate one. The patient was brought here only two days ago, and the operation was the last resort to save her life. The tumor is the largest which has been removed from any one in this city, to the best recollection of the physicians. Dr. Holston remembers only one case in this section in which the tumor was larger, one weighing 126 pounds being removed from a woman in New Lexington. It was necessary to separate every part from the abdominal wall before the foreign growth could be removed. This also was something unusual in the anesthetics of surgery. The operation was rapidly performed.

Don't miss the Christmas performances at the Auditorium on Monday December 26. Seat sale will open on Saturday morning at 8:30.

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germs which feeds on the hair roots.

### DEAD UNDER BED

Body of a Lancaster Man Found by Brother Discovered Two Days Later.

Lancaster, O., Dec. 23.—Suspicioning that some ill fate had befallen his brother, Jacob Baumeister, a bachelor who lived alone in a cottage in South Lancaster, from his continued absence from his usual haunts, and searching the house in company with the chief of police, the head of the dead body of the missing man, protruding from under the edge of the bed, the lace set in lines of agony, was the startling sight that met the eyes of John Baumeister.

The dead man had long been a sufferer from epilepsy, and it was evident that he had died from a seizure. He was 46 years of age, and notwithstanding his affliction, insisted on living alone.

He had not been seen since Monday and it is believed death came early Monday afternoon. He had evidently fallen and struggled under the bed in his convulsions. He leaves two brothers, John and Charles Baumeister, and four sisters, Mrs. Smith, Mrs. S. D. Spookman of this city, and Mrs. Carr and Mrs. W. C. Connell of Columbus.

### CITY SOLICITOR

Says He and Three Others Were Offered Money

### TO MAKE A FALSE BOND SALE

Mayor Declares There is No Thought of New Bonds—Journal Entry Stricken Off.

Solicitor Phil B. Smythe takes umbrage at a statement made in another paper Thursday night that his and the other four men's efforts were to "muddle and complicate" rather than simplify the situation." Mr. Smythe said: "Since such a charge is made I will tell just how much truth there is in it, and also how myself and three others were approached by representatives of the water company and offered money to make a false sale of the bonds in order that it might be tied up in litigation and thus benefit the Water Works company."

The amended petition for an injunction filed Thursday in the Water Works controversy was the subject of comment during the day at the City Hall.

Mayor Crilly was particularly indignant at the allegation made by Chas. Vadakin, that the Mayor was preparing to issue new bonds in lieu of those already sold.

The mayor denied the allegations of Mr. Vadakin in his sworn statement absolutely. He said, "I have never had any idea of making new bonds. Vadakin must remember that there will be a grand jury meeting next month and these statements of his will be brought to its attention."

Judge Coyner on Friday sustained the motion of Charles Vadakin which was filed in the case of Phil B. Smythe against A. J. Crilly and others, ordering the entry stricken from the journal. This is the entry purporting to sustain a demurrer filed to the petition, and which entry was approved by Phil B. Smythe and F. A. Bolton. Smythe requested that the case be dismissed, which request was refused by the court. Flory & Flory, on behalf of Charles Vadakin, asked leave to file an answer and cross petition, which was also refused by the court.

### EVANS SENTENCED

To Three Years Imprisonment, But Sentence is Suspended Pending an Appeal.

Philip B. Evans, who was tried and found guilty of mayhem, in striking and breaking the elbow of Stephen Nessley of Kirkersville, was on Friday sentenced by Judge Coyner to three years in the penitentiary. The sentence was suspended on Evans giving bond in the sum of \$1,000, pending proceedings in the Circuit court.

In the case of Martin vs. Carter, a motion for a new trial was overruled.

### WEDDING

Of Otto Harrison and Miss Lulu Courier, of Jersey, Ohio, on Thursday Evening.
